

JACK BODSWORTH

Melbourne, Australia • +61 418 600 227 • jack.bodsworth@gmail.com

PROFESSIONAL SUMMARY

Results-driven front-end developer with 4+ years experience of crafting intuitive, high-performance user interfaces using Vue.js, React and modern JavaScript. Skilled in building reusable component libraries, design systems, automated CI/CD pipelines, and comprehensive testing to improve user experience, developer productivity and code quality. Passionate about performance optimisation, refactoring and cross-functional collaboration to deliver exceptional digital solutions that drive efficiency and engagement.

WORK EXPERIENCE

Front End Developer, University of Melbourne

July 2023 - Present

- Established a unified design system adopted across 5+ repositories, enforcing consistent UI/UX patterns and reducing visual inconsistencies significantly while accelerating feature development.
- Implemented automated CI/CD workflows across 5 repositories, incorporating unit and end-to-end testing, shortening deployment cycles by 40% and enhancing code reliability.
- Increased enrollment efficiency by 20% by developing a mobile-friendly, responsive platform.
- Boosted user engagement by 15% through creation of a dynamic, reusable component library.
- Reduced page load times by 30% via Vue.js optimizations, asset compression, and performance best practices.
- Integrated components into Storybook, cutting development and prototyping time by 25%.
- Reduced technical debt by 40% through systematic code refactoring and cleanup.

Front End Developer, Australasian College for Emergency Medicine

July 2021- July 2023

- Reduced page load times by 25% through targeted code optimizations, asset compression, and performance tuning.
 - Decreased development time by 30% by building and maintaining a reusable component library integrated with Storybook for rapid prototyping and consistency.
 - Enhanced code maintainability and reduced production bugs by implementing automated unit and integration tests, achieving significantly higher test coverage.
 - Accelerated onboarding for new developers by creating comprehensive documentation and reusable patterns, shortening ramp-up time by approximately 20–25%.
-

EDUCATION

Diploma in Website Development, Holmesglen Moorabbin	Feb 2020 - Feb 2021
Bachelor of Audio, SAE Qantm Institute Melbourne	Feb 2017 - Feb 2019
VCE, McKinnon Secondary College	Feb 2011 - Dec 2016

SKILLS

- **Core Languages & Markup:** HTML5, CSS3, JavaScript (ES6+), TypeScript
 - **Frameworks & Libraries:** Vue.js, React, SwiftUI
 - **Styling & Design:** Sass, Ulkit
 - **Tools & Platforms:** Storybook, Figma, Node.js, Git
 - **Testing & Automation:** Unit Testing, End-to-End Testing, CI/CD Pipelines
 - **Other:** Agile Methodologies, Bash, Responsive Design, Performance Optimization
-
